COMMERCIAL GREYHOUND RACING NZ MARKET ANALYSIS

CAMORRA RESEARCH REPORT
PREPARED IN CONFIDENCE FOR SPCA OCTOBER 2022
Camorra Research were commissioned to undertake an independent, robust and representative analysis of sentiment towards commercial greyhound racing among the New Zealand population.

The objective of the research is therefore to provide unbiased and reliable data regarding:

• Current awareness and familiarity with commercial greyhound racing
• Understand current attitudes and perceptions
• Identify level of current support or opposition
• Provide context in terms of current, relevant behaviours
Camorra Research are sampling experts in the market research industry

In order to ensure representative of results we surveyed a large robust base of 1,327 respondents.

The my2cents sampling solution was employed which allows validation of results and is the preferred sampling source for all major NZ banks.

To ensure representativeness, we employed a multi cell quota design with interlocking quotas for age, gender, and region. Final data was weighted to NZ Census data.

Questionnaire was designed using balanced response scales.
SPCA used an independent market research agency, Camorrah Research, who spoke with a nationally representative sample.

1,327 New Zealanders were interviewed about Commercial Greyhound Racing in NZ.
Over two thirds are either unaware (13%) or are aware but don’t know anything about commercial greyhound racing in New Zealand
